

Multiple Permit: This option is available to a user if the user is issuing multiple permits without changing some information.

First click on the Multiple Permit to the left of any screen.

The user can either type in the company name or the permit number then click the search button

Click the down arrow button to retrieve the permit

NOTE: eSNOOPI will only allow a user to do a multiple permit from the same permit.

Select the vehicle then click proceed.

At this screen the user will select the payment type.

NOTE: If the check option was selected a check number should be provided.

If the route of travel requires no changes then click on the View Restriction button. Double check the restriction and click Issue Permit.

Once the user has completed the routing:

- Click the view restrictions button. Go through the restrictions that are listed if everything is okay the user can either [add to the cart](#) or issue the permit;
- If the user selected the check or cash for a payment type the permit will be issued but
- If the user select the credit card option the system will then direct the user to the [credit card screen](#); a Bank of America page.

If the user would like to remove a highway click in the box next to the route number and click remove button.

NOTE: Anytime a user makes any changes to the routing or returns to the previous screen the View Restriction button must be re-clicked.
